Project Experience
Sector: Commercial

South Park Hub

London

Details

Value: £16,000 (M&E)

Client: Swiftline Engineering Ltd

Anderson Green's Role:

- BIM Level 2
- Full M&E Design
- Co-ordinated working drawings
- Part L & EPC production
- Thermal Modelling

Synopsis

A new multifunction building located at the Olympic village adjacent to the ArcelorMittal Orbit sculpture.

Anderson Green provided the full MEP design, coordinated working drawings and BIM modelling of all MEP services throughout the building.

Best in Class

This was Anderson Green's first BIM Level 2 Project.

Various BIM platforms were used by the design team, however we were still able to collaborate effectively using IFC and produce clash-free detailed coordinated models and drawings ensuring the BIM strategy for the project was realised.

Non graphical data and asset tagging was provided to all MEP systems and equipment in line with the project BIM Execution Plan and clients' requirements.
