SECTOR: Hotels

THE SLOUGH HOTEL

Slough, Berkshire

This project comprised supporting the planning stage for a new hotel containing 168 individual, en-suite bathrooms, gym, restaurant, communal areas and a ground floor A3 retail unit, all in accordance with Hampton by Hilton's brand standards.

We were involved from inception at the site acquisition stage and developed the infrastructure, energy and services strategy proposals, the planning application and tender documents.

The hotel aimed to achieve a BREEAM 'Very Good' accreditation, and a number of optional enhancements were also in development to meet the Hampton by Hilton brand's future low-carbon aspirations.

PROJECT DETAILS

- Client – Somerston Capital
- Value – £11m
- M&E Services
